Education

PES University

Pursuing B.Tech in Computer Science Engineering

Skills

Languages: Python, Go

Technologies: Git

Experience & Contributions

ACM PESU – Hacknight

- Participated in open-source contribution–focused hacknight sessions.
- Gained exposure to collaborative development and working with existing codebases.

anna SSG (Static Site Generator)

- Contributing to a Static Site Generator written in Go.
- Focused on improving documentation and implementing a more user-friendly logging system.

Projects

PhishShield

- Built a phishing detection system implemented as a Chrome extension.
- Focused on identifying malicious links and improving user safety while browsing.

Go-Book-It

- Developed a CLI-based booking system using Go.
- Implemented core booking logic and command-line interactions.
